EDUCATION

Full Stack Web Dev

Saylani Mass IT Training

2023 — Present

MERN stack · REST APIs · Git ·
Deployment

SUMMARY

Passionate Full Stack Developer specialising in the MERN stack. Currently at SMIT, Karachi — building fast, accessible, and visually polished web apps: RESTful backends to animated 3D React frontends. Driven by clean code, great UI/UX, and real-world impact.

EXPERIENCE

Full Stack Developer (Student Projects)

2023 — Present

SMIT — Saylani Mass IT Training · Karachi

- Built 6+ production MERN apps — Task Manager, Expense Tracker, Student Portal.
- REST APIs with Node.js & Express, secured via JWT auth and bcrypt hashing.
- MongoDB + Mongoose: complex schemas, relationships and aggregation pipelines.
- React UIs with Framer Motion animations and Three.js 3D environments.

PROJECTS

■ Task Manager

React·Node·MongoDB·JWT

Full-stack to-do with auth & CRUD.

to-do-app-phi.vercel.app
